## **TRAFFIC CONTROL REQUIREMENTS FOR CRANE OPERATIONS WITHIN R.O.W.**

**Name of Company:** Schuster Concrete Construction  
**Location:** 7900 Wisconsin Ave (crane on Woodmont Ave.)

The permittee will be allowed to assemble the crane on the roadway and County Right-of-Way within the established work area as shown on the attached plan.

### **CONDITIONS OF THE PERMIT ARE AS FOLLOWS**

The permittee will be solely responsible for all accidents and/or damage to person and/or property damage resulting from his operation.

The permittee will be allowed to stage the crane operation on a daily basis weather permitting starting **Saturday May 30, 2020 to Sunday May 31, 2020** between the hours of **2:00AM-6:00PM** in accordance with the following provisions and attached approved Temporary Traffic Control Plan (TTCP).

**The permittee is responsible for notifying all the business/residents a minimum of 48 hours in advance in writing to inform them of scope and duration of the closure.**

Hours must be in compliance with the Department of Environmental Protection Noise Ordinances. It is very crucial the applicant obtain noise waiver permit from Department of Environmental Protection (DEP) prior to start of crane activities.

**The permittee must contact the MCDOT, Division of Parking Operations Section 240-777-8740 a minimum of 48 hours in advance as to arrange for payment and the bagging of all parking meters within the work area. Meter numbers and location must be specified.**

All traffic control devices **must** be in place and the work zone established prior to placing equipment within Montgomery County Right-of-Way (ROW) and/or roadway.

The out-riggers of the crane shall be positioned on the pavement and the pavement and sidewalk (if applicable) shall be protected by weight distribution devices.

The permittee shall be restricted to the area as depicted on the attached drawing.

Signs and temporary traffic devices are to be placed to completely secure the work area in accordance with the attached TTCP.

At no time during the hoisting operations shall the cranes boom pass over any lanes open to traffic and/or any pedestrian traffic. Flaggers will stop pedestrian and traffic until the boom has cleared the travel path.

All signs and temporary traffic control devices **must** conform to the requirements of the **MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES.**

All portable signs shall be mounted a minimum of one (1) foot above the level of the roadway, with higher mounting heights desirable.

**No hazardous materials shall be stored within public right-of-way. No materials or equipment shall be stored on the roadway surfaces or sidewalk during non-work hours.**

The permittee shall assume all responsibility for all damages to the public space and private property caused by this work.

The permittee shall contact the MC Bethesda Police Department 301-657-0123 a minimum of 48 hours in advance to arrange for the posting of the parking areas within the work zone.

At the end of the permitted work activity, conditions within the public space and private shall be restored to those which existed prior to the permitted work activities.

Vehicle and pedestrian access to properties abutting the roadway listed on this event **must** be permitted where possible. **Emergency Vehicles Shall Be Permitted Passage at All Times.**

Field assistance by MCDOT Traffic Operations section is available upon request, by contacting the Area Engineer at 240-777-2190, Monday - Friday.

**The permittee is responsible for notifying all the business/residents in the vicinity a minimum of 48 hours in advance in writing to inform them of scope and duration of the closure.**

The permittee is responsible for notifying the following persons/agency the morning of any scheduled work activities under this permit.
